Tammy –

Edits attached. Can you send up as an ERO Issue paper?

Just a reminder, once it's cleared, we do not send for posting until we make notifications (I'll handle those). I'll let you know when we're good to go for posting.

Thanks,
Sarah

Subject: Death of Detainee Yulio CASTRO (b)(6);(b)(7)(C)

Tammy,

Per my 1105 message, Mr. CASTRO, our detainee at the Mayo Clinic, passed away at 2017 this evening. Attached is a draft of an ES current until the time of his death as referenced below.

The official detainee death notification will be forthcoming from HQ shortly. PAO will be copied.

If you need anything else please let us know.

Thanks,

Subject: SEN Report Notification Death of Detainee

Detainee Castro-Garrido, Yulio (b)(6);(b)(7)(C) passed away at 2017 on 30 Jan 2018. The detainee had been transferred from Phoebe Putney Hospital in Albany, GA to the Mayo Clinic in Jacksonville, FL on 17 Jan 2018 with a diagnosis of pneumonia and pneumonitis secondary to MRSA infection.

The attending physician reported the patient's condition deteriorated today (30 Jan 2018) with septic shock, hypotension and bradycardia that was unresponsive to treatment efforts. The detainee went into respiratory arrest and subsequently cardiac arrest shortly after 2000 tonight (30 Jan 2018). Emergency resuscitation efforts were immediately initiated but after approximately 15 minutes the physician pronounced the detainee deceased (2017).

The hospital has been notified not to release the body at this time. The hospital was informed that ICE would be in contact with the hospital to discuss disposition of the body and to request an autopsy.

The Joint Intake Center was notified via email from CAPT (b)(6);(b)(7)(C)

Additional information will be forwarded as it becomes available.

Please contact me if you have any questions.

Subject: SEN Report Notification Hospital Update

SDC has two Detainees at the hospital

Detainee#1:

Castro-Garrido, Yulio currently admitted to Mayo Clinic RM 404 in Jacksonville, FL.
For report please call 904 956-(b)(6);(b)(7)(C) and ask for floor supervisor.

Hospital Day : 23

Name: Castro-Garrido, Yulio

A# (b)(6);(b)(7)(C)

DOB: 10/27/1984

Country Citizenship: Cuba

Date of Arrival: 11/24/2017

Relevant Medical History: None

Date of admission: 1/8/2018

Current Diagnosis: Pneumonia and Flu-A, MRSA

Attending Physician: (b)(6);(b)(7)(C) (Infectious Disease)

Current status: 1/30/18

Detainee is currently a Full Code and in critical condition. Detainee is in a medically induced coma with vital signs as follow: BP: 99/46 (arterial), HR: 119, O2 Sat 91%, Respirations: 35, and Temp: 37.2C.

Detainee has tracheostomy and currently on Pressure Control Ventilator, setting as follows: FIO2- 100% Respirations- 35, PEEP – 15, Pressure above PEEP – 30. Tidal volumes ranging 440 in and 140 out. Detainee has four chest tubes in total (2 left & 2 right) plus a pigtail drain. Right. Pleural chest tube labelled #2 draining moderate amount of serous drainage at 100cc. Chest tube #4 draining clear at 00cc. Right chest tubes have drained a total of 110 ml in 8 hrs at 10:00 pigtail= 10 cc.. Suction on four chest tubes set at -25 and the right chest tube labeled #2 set at -10. Recent ABG's drawn as at 0430 on 1/30/18: Blood Gases: PH 7.149, PACO2- 150, PAO2 -109.8, Bicarb 51.2, O2 sat 71.6%. Detainee is receiving Levophed at 0.02mcg/kg/min and Lasix at 20mg/hr. Detainee is also receiving supplemental nutrition via NJ tube, Oxepa 25 ml/hour. He is also receiving 30 ml free water flush every four hours. Detainee currently has NG tube that is attached to suction low intermittent suction. Foley catheter is in place with total urinary output for 8 hrs at 06:00 was 10cc, with a total output for today of 690cc. yesterday and today the 1/30/18 so far has 200 cc. A rectal tube is also in place. .

Diagnostic procedures: No new ones as 1/30/18

1/28/2018- CT of the chest without contrast- Numerous bilateral cavitations. Ground glass opacities compatible with MRSA pneumonitis. Interval mild increase in size of moderate bilateral pneumothoraces. Numerous bilateral pulmonary cavitations not significantly changed from 1/17/18. Trace pleural fluid on the right. No pericardial effusion. Gallbladder wall thickening. Diffuse anasarca.

1/28/18 Chest X-ray-Increased size of right pneumothorax, minimal right to left shift of midline structures

1/24/2018 Echo result shows EF of 63%.

Bronchoscopy showed MRSA, Blood cultures positive for Bordetella Holmesii. Influenza A +, HIV negative

Subject: Detainee Death Notification - Yulio CASTRO-Garrido

The message below is distributed by Matthew T. Albence, Executive Associate Director for Enforcement and Removal Operations.

Pursuant to ICE policy, I am providing notification of the death of an ICE detainee: Yulio CASTRO-Garrido, (b)(6);(b)(7)(C)

ISSUE:

On January 30, 2018, U.S. Immigration and Customs Enforcement (ICE), Enforcement and Removal Operations (ERO) Atlanta reported the death of ICE detainee Yulio CASTRO-Garrido, a 33 year-old citizen of Cuba, at the Mayo Clinic in Jacksonville, FL. The medical staff pronounced CASTRO dead at 2017 hours EST on January 30, 2018, with the preliminary cause of death of cardiac arrest.

Consistent with ICE policy, ERO Atlanta notified the Department of Homeland Security, Office of Inspector General and ICE Office of Professional Responsibility via the Joint Intake Center. ERO's Removal and International Operations has notified the Consulate of Cuba in Washington, DC of CASTRO's death. ERO Atlanta has notified CASTRO's next of kin.

All media inquiries will be referred to the ICE Office of Public Affairs.

BACKGROUND:

On October 27, 2013, CASTRO applied for admission to U.S. Customs and Border Protection (CBP) at the Gateway to the Americas Bridge port of entry in Laredo, TX. CBP paroled him into the United States until October 26, 2015.

On November 3, 2014, CASTRO submitted an Application to Register Permanent Residence or Adjust Status, Form I-485, to U.S. Citizenship and Immigration Services (USCIS).

On July 24, 2015, USCIS approved CASTRO's Form I-485 application adjusting his status to that of a Lawful Permanent Resident.

On December 8, 2016, the U.S. District Court Southern District of Texas in Laredo, TX convicted CASTRO of Conspiracy to Transport and Move an Undocumented Alien Within the United States by Means of Transportation, and sentenced him to 12 months and one day confinement and 3 years of supervised probation.

On October 18, 2017, ERO Atlanta encountered CASTRO at the D. Ray James (DRJ) Federal Correctional Institute in Folkston, GA, and served him with a Notice to Appear (NTA), Form I-862, as he appeared amenable to removal from the U.S. pursuant to Section 237(a)(2)(A)(iii) of the Immigration and Nationality Act.

On November 24, 2017, DRJ released CASTRO to ERO Atlanta's custody and he was transferred to the Stewart Detention Center (SDC) in Lumpkin, GA.

On November 28, 2017, the Office of Chief Counsel reviewed CASTRO's NTA and determined it to be legally sufficient.

On January 4, 2018, the immigration judge ordered CASTRO removed to Cuba. CASTRO waived his right to appeal.

On January 7, 2018, at approximately 2320 hours EST, Core Civic officers transported CASTRO to the Southwest Regional Medical Center (SWRMC) in Cuthbert, GA, for evaluation and treatment for pneumonia.

On January 8, 2018, at approximately 0030 hours EST, SWRMC admitted CASTRO.

On January 9, 2018, IHSC at the SDC informed ERO Atlanta that CASTRO was resisting all medical treatment causing his medical conditions for pneumonia to increase in severity. IHSC staff coordinated with Core Civic and transferred CASTRO to the Phoebe Putney Memorial Hospital (PPMH) in Albany, GA. PPMH medical staff placed CASTRO on a ventilator, stabilizing his deteriorating medical condition.

On January 12, 2018, IHSC advised ERO Atlanta that CASTRO's medical condition had worsened. ERO Atlanta contacted CASTRO's spouse, mother and brother, and advised them of his declining health condition. ERO Atlanta facilitated the family's visit to CASTRO at PPMH at 1100 hours EST on January 13, 2018.

On January 17, 2018, PPMH transported CASTRO by a medically equipped helicopter to the Mayo Clinic in Jacksonville, FL as CASTRO required a higher level of care than could be provided by PPMH.

On January 20, 2018, GEO security staff advised ERO Atlanta that CASTRO's family members refused to sign a Do Not Resuscitate order.

On January 20, 2018 and January 22, 2018, CASTRO's family visited him at the Mayo Clinic in Jacksonville, FL.

On January 22, 2018, IHSC reported that CASTRO was in critical condition and in a coma.

On January 30, 2018, the Mayo Clinic reported that CASTRO's condition deteriorated documenting he suffered from septic shock, hypotension and bradycardia, and that he was unresponsive to treatment efforts. CASTRO went into respiratory arrest and subsequently cardiac arrest shortly after 2000 hours. Emergency resuscitation efforts were immediately initiated but after approximately 15 minutes, the physician pronounced CASTRO deceased at 2017 hours EST.

CASTRO is the second detainee to pass away in ICE custody in fiscal year 2018.

Hi Tamara,

How are you doing? I hope all is going well.

I wanted to follow up with you regarding Yulio Castro-Garrido's death, who was previously held at the Stewart Detention Center.

I am curious about what the reporting process was like when Mr. Castro died. In the original press release, it says he had "initially resisted medical treatment." The press release was then updated to clarify his case was "resistant to some forms of medical intervention."

Can you please clarify what "resistant to some forms of medical intervention" means? Can you also please clarify what led the ICE report to originally say he had resisted medical treatment?

Thank you so much,

José

<TAMARA.SPICER@ice.dhs.gov> wrote:

Jose, we are not able to release anything further on Mr. Castro-Garrido, as the case is undergoing a comprehensive review.

Also, ICE is currently reviewing the report you cited (<https://www.oig.dhs.gov/sites/default/files/assets/2017-12/OIG-18-32-Dec17.pdf>) to develop a plan to make changes to operations, if needed.

Finally, on your last question, I believe our Press Secretary has provided you all the information that would be available.

Subject: Following up: Questions from The Intercept regarding detainee death

Hi, Tamara:

I hope you are doing well.

I wanted to follow up with you regarding questions on the Stewart Detention Center. Please find those questions below:
— Regarding the death of Mr. Yulio Castro-Garrido (<https://www.ice.gov/news/releases/ice-detainee-passes-away>), can you please clarify the claim “Mr. Castro initially

resisted medical treatment"? How did he resist the treatment?

— Will ICE be investigating conditions in the Stewart Detention Center, as a result of Mr. Castro's death?

— How has ICE monitored conditions at the Stewart Detention Center, since the Office of Inspector General published the report on worrying detainee treatment at Stewart? <https://www.oig.dhs.gov/sites/default/files/assets/2017-12/OIG-18-32-Dec17.pdf>

— After reviewing detainee deaths since the beginning of Fiscal Year 2016, The Intercept found the majority of them are occurring in privately contracted detention facilities. Why is this the case? Are there different conditions in facilities that are privately contracted? Or is there a higher proportion of detainees housed in private facilities, making this the case?

Please let me know when a response may be available.

Thank you so much,

Jose Olivares

Cc: "Spicer, Tamara" <TAMARA.SPICER@ice.dhs.gov>, ICEMedia <ICEMedia@ice.dhs.gov>

Jose,

Once again, I'd ask you to send queries to the ICEMedia box. ICEMedia@ice.dhs.gov so I am not a single point of failure.

In terms of the various business models of our detention facilities, here is the latest I can provide:

As of July 1, 2017 (the beginning of the 4th quarter of FY17), ICE's Average Daily Population (ADP) was 38,613. As of July 2017, ICE used 201 authorized adult detention facilities (not

including family facilities) to house 93% of the Fiscal Year 2017 (FY17) ADP, including:

- Five government-owned Service Processing Centers (SPC), housing 9% of the FY17 ADP. SPCs are staffed by a combination of federal and contract staff. (FY17 ADP 3,336 detainees)
- Eight Contract Detention Facilities (CDF), housing 18% of FY17 ADP. CDFs are facilities owned by a private company and contracted directly with the federal government. (FY17 ADP 6,897 detainees)
- 12 dedicated Intergovernmental Service Agreements (IGSA) facilities, housing 26% of FY17 ADP. Dedicated IGSA facilities enable ICE to contract with a local government entity for exclusive use of the facility, and the local governmental entity contracts for facility staffing/operations. (FY17 ADP 10,131 detainees)
- 82 non-dedicated IGSA, housing 21% of FY17 ADP. At non-dedicated IGSA ICE will contract for partial use of the facility. (FY17 ADP 8,043 detainees)
- 94 facilities with a USMS Intergovernmental Agreement (IGA), housing 20% of FY17 ADP. At USMS IGA facilities, ICE obtains bed space through an existing agreement that each facility maintains with the USMS. (FY17 ADP 7,608 detainees)
- Most of the non-dedicated IGSA and IGAs are county jails; however, 47% of these facilities will have an ADP of less than 10 detainees.
- The remaining 7% of FY17 ADP are housed in Family, BOP, hospitals, and infrequently used facilities with low populations. (FY17 ADP 2,597 detainees)
- In considering the DOJ directive regarding private prisons in relation to ICE's use of privatized immigration detention, we believe it is important to understand how the BOP system compares to the ICE detention system.
- ICE uses these various kinds of facilities to meet the agency's detention needs while achieving the highest possible cost savings for the taxpayer. Current bed day rate is approximately \$129.
- The programming and conditions at ICE SPCs, CDFs and dedicated IGSA in large part exceed the conditions at many of the non-dedicated IGSA and/or county jails that hold detainees. These facilities are operated to house only immigration detainees and are subject to the 2011 Performance Based National Detention Standards.

· ICE currently has either permanent or roving staff at 50 CDFs, dedicated IGSAs and non-dedicated IGSAs, housing 66 percent of the FY 2017 total ADP. The ICE staff monitors conditions of confinement on a daily basis and ensures these facilities are meeting the ICE detention standards and other contractual requirements.

· ICE currently has either permanent or roving staff at 55 CDFs, SPCs, dedicated IGSAs and non-dedicated IGSAs, housing 75 percent of the FY 2017 total ADP. The ICE staff monitors conditions of confinement on a daily basis and ensures these facilities are meeting the ICE detention standards and other contractual requirements.

--

I'm also copying Tamara Spicer here who can provide info about local efforts surrounding the Stewart facility. I believe they are currently reviewing the report to develop a plan to make changes to their operations, if needed.

Regards,
Jennifer

Subject: Re: Questions from The Intercept regarding detainee death

Hi Jennifer,

I'm so sorry to hear you were sick. I hope you are feeling better!

Thank you so much for passing this on, I greatly appreciate it. There were also some questions included for more general points, that are not just specific to Georgia. I would greatly appreciate some your insight for those. Please let me know if this is possible (they are listed at the bottom of this email).

Thank you so much! I hope you are doing better. Sorry to hear you were out with the flu — seems it has been going around these past two weeks.

Take care,

Jose

— How many detention facilities does ICE manage in the U.S.?

— How many of ICE's facilities are privately contracted in the U.S.?

— How many detainees are held in privately contracted detention facilities?

— How many detainees are held in publicly-run detention facilities?

— After reviewing detainee deaths since the beginning of Fiscal Year 2016, The Intercept found the majority of them are occurring in privately contracted detention facilities. Why is this the case? Are there different conditions in facilities that are privately contracted? Or is there a higher proportion of detainees housed in private facilities, making this the case?

Jose,

Apologies for my delayed response. I was out with the flu. In the future, best to send your queries to our main media box at ICEMedia@ice.dhs.gov so that I'm not a single point of failure.

I am connecting you here with colleagues who are covering Georgia for public affairs. I see that you have reviewed the news release regarding Mr. Castro-Garrido's passing. We will not be able to provide additional information about that case, but they may be able to give general information regarding the Stewart facility.

They can be in touch tomorrow, assuming there is not a lapse in government funding overnight tonight.

Hi Ms. Elzea,

I hope this email finds you well. My Name is Jose Olivares, I am a reporter with The Intercept.

I wanted to follow up with you regarding some questions I sent to

ICEMedia last Friday. These are the questions I sent:

— How many detention facilities does ICE manage in the U.S.?

— How many of ICE's facilities are privately contracted in the U.S.?

— Regarding the death of Mr. Yulio Castro-Garrido (<https://www.ice.gov/news/releases/ice-detainee-passes-away>), can you please clarify the claim “Mr. Castro initially resisted medical treatment”? How did he resist the treatment?

— Will ICE be investigating conditions in the Stewart Detention Center, as a result of Mr. Castro’s death?

— How has ICE monitored conditions at the Stewart Detention Center, since the Office of Inspector General published the report on worrying detainee treatment at Stewart? <https://www.oig.dhs.gov/sites/default/files/assets/2017-12/OIG-18-32-Dec17.pdf>

— After reviewing detainee deaths since the beginning of Fiscal Year 2016, The Intercept found the majority of them are occurring in privately contracted detention facilities. Why is this the case? Are there different conditions in facilities that are privately contracted? Or is there a higher proportion of detainees housed in private facilities, making this the case?

I also wanted to add two more questions, in addendum to the first two:

— How many detainees are held in privately contracted detention facilities?

— How many detainees are held in publicly-run detention facilities?

Thank you so much. I look forward to hearing from you soon.

Take care,

FROM ATL IHSC:

Castro-Garrido, Yulio currently admitted to Mayo Clinic RM 404 in Jacksonville, FL 1/17/18. Detainee was transferred from Phoebe Putney Memorial Hospital, Albany Ga--MICU RM 11 (transferred from SWGRH – CUTHBERT)

For report please call 904 956-(b)(6);
(b)(7)(C) and ask for floor supervisor.

Hospital Day : 15

Name: Castro-Garrido, Yulio

A# (b)(6);(b)(7)(C)

DOB: 10/27/1984

Country Citizenship: Cuba

Date of Arrival: 11/24/2017

Relevant Medical History: None

Date of admission: 1/8/2018

Current Diagnosis: Pneumonia and Flu-A, MRSA

Attending Physician: (b)(6);(b)(7)(C) (Infectious Disease)

Current status: 1/22/18

Detainee is currently a Full Code and in critical condition. Detainee is comatose with vital signs as follow: Blood Pressure 139/65, Respirations 26, Heart Rate 110, Temperature 37.5C.

Detainee has tracheostomy and currently on Pressure Control Ventilator, setting as follows: FIO2- 100%, Respirations- 26, Pressure above Peep - 27. Detainee has left chest tube with 15 ml of serosanguineous drainage and right chest tube with 210 ml of serous drainage. Recent ABG's drawn: PH 7.295, PCO2 95.6, PO2 112.6, Bicarb 45.5. Detainee is receiving supplemental nutrition via NG tube, Oxepa 25 ml/hour. He is also receiving 30 ml free water flush every four hours. Foley catheter is in place with urinary output of 30-60 ml/ hour. Has Left subclavian catheter and right radial arterial line in place. FSBS Q4hr.

(b)(6);(b)(7)(C) at the MAYO Clinic spoke with (b)(6);(b)(7)(C) the Clinical Director (CD) at SDC, 1/18/18 at approximately 0930 and indicated they were going to perform a tracheostomy and then transfer the detainee back to the sending facility in Albany, GA (Phoebe Putney Memorial Hospital) as the detainee is not a candidate for ECHMO. (b)(6);(b)(7)(C) requested (b)(6);(b)(7)(C) reconsider the decision to transfer the detainee and continue treatment at the Mayo Clinic.

(b)(6);(b)(7)(C) did reiterated that a tracheostomy was performed and detainee is in stable condition to be transferred back to Phoebe Putney since he is not a candidate for ECHMO.

On January 17, 2018, while preparing the detainee to be transferred from Phoebe Putney Memorial Hospital in Albany, GA to the Mayo Clinic in Jacksonville, Florida the detainee went into cardiac arrest at approximately 1336 when he was disconnected from the vent system. The detainee was successfully resuscitated and subsequently transported to Mayo Clinic at approximately 1530 on January 17, 2018.

Lab results: Bronchoscopy showed MRSA, Blood cultures positive for Bordetella Holmesii. Influenza A +

ISSUE: Passing of an ICE detainee

STATEMENT:

ATLANTA – A Cuban national in the custody of U.S. Immigration and Customs Enforcement (ICE) died Tuesday night at the Mayo Clinic in Jacksonville, Fla.

Yulio Castro-Garrido, 33, was transported Jan. 7 to Southwest Regional Medical Center (SWRMC) in Cuthbert, Ga. after ICE Health Service Corps (ISHC) medical personnel at the Stewart Detention Center (SDC) in Lumpkin, Ga. diagnosed him with pneumonia.

After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen. On Jan. 9, IHSC staff coordinated the transfer of Castro to the Phoebe Putney Memorial Hospital (PPMH) in Albany, Ga. where he was placed on a ventilator to stabilize him.

On Jan. 17, PPMH transported to the Mayo Clinic in Jacksonville for additional treatment. Mr. Castro slipped into a coma Jan. 22 and never regained consciousness.

Consistent with agency protocols, next of kin and appropriate state health and local law enforcement agencies have been notified about the death, as have the Department of Homeland Security's Office of Inspector General and the ICE Office of Professional Responsibility. Additionally, ICE will also notify the Cuban Embassy in Washington, DC.

ICE is firmly committed to the health and welfare of all those in its custody and is undertaking a comprehensive review of this incident, as it does in all such cases. Fatalities in ICE custody,

statistically, are exceedingly rare and occur at a fraction of the rate of the U.S. detained population as a whole. This agency's comprehensive review will be conducted by ICE senior leadership to include Enforcement and Removal Operations, the Office of Professional Responsibility and the Office of the Principal Legal Advisor.

Mr. Castro entered ICE custody on Nov. 24, following his transfer from the D. Ray James Federal Correctional Institute in Folkston, Ga. Castro was convicted Dec 8, 2016 of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced to a year and one day of confinement and three years of supervised probation. An immigration judge with the Executive Office for Immigration Review ordered Castro to be removed to Cuba Jan. 4; Mr. Castro waived his right to appeal.

Mr. Castro is the second detainee to pass away in ICE custody in fiscal year 2018.

INTERNAL INFORMATION (NOT FOR RELEASE):

On January 7, 2018, ERO Atlanta notified ERO HQ Domestic Operations that Yulio CASTRO-Garrido, (b)(6);(b)(7)(C) a 33 year-old citizen and national of Cuba, would be admitted to the Southwest Georgia Regional Hospital in Cuthbert, GA for pneumonia and Flu-A treatment. On January 17, 2018, CASTRO was transferred to Mayo Clinic in Jacksonville, FL via air ambulance as the ICE Health Service Corps (IHSC) reported that CASTRO's condition continued to deteriorate.

BACKGROUND:

On October 27, 2013, CASTRO applied for admission to U.S. Customs and Border Protection (CBP) at the Gateway to the Americas Bridge port of entry in Laredo, TX. CASTRO stated that he had a fear of returning to his home country of Cuba. CBP paroled CASTRO into the United States until October 26, 2015.

On November 3, 2014, CASTRO submitted an Application to Register Permanent Residence or Adjust Status, Form I-485, to U.S. Citizenship and Immigration Services (USCIS).

On July 24, 2015, USCIS approved CASTRO's Form I-485 application adjusting his status to a Lawful Permanent Resident.

On December 8, 2016, the U.S. District Court Southern District of Texas in Laredo, TX convicted CASTRO of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced him to 12 months and one day confinement and 3 years of supervised probation.

On October 18, 2017, ERO Atlanta encountered CASTRO at the D. Ray James (DRJ) Federal Correctional Institute in Folkston, GA. ERO Atlanta determined CASTRO to be a Lawful Permanent Resident with an aggravated felony conviction and served him with a Notice to Appear, Form I-862, pursuant to Section 237(a)(2)(A)(iii) of the Immigration and Nationality Act.

On November 24, 2017, DRJ released CASTRO to ERO Atlanta's custody and he was transferred to the Stewart Detention Center (SDC) in Lumpkin, GA.

On November 28, 2017, the Office of Chief Counsel reviewed CASTRO's Form I-862 and determined it to be legally sufficient.

On January 4, 2018, the immigration judge ordered CASTRO removed to Cuba. CASTRO waived his right to appeal.

On January 7, 2018, at approximately 2321 hours EST, Core Civic officers transported CASTRO to the Southwest Regional Medical Center (SWRMC) in Cuthbert, GA for evaluation and treatment for pneumonia.

On January 8, 2018, at approximately 0030 hours EST, SWRMC admitted CASTRO.

On January 9, 2018, IHSC at the SDC informed ERO Atlanta that CASTRO was resisting all medical treatment causing his medical conditions for pneumonia to increase in severity. IHSC staff coordinated with Core Civic and transferred CASTRO to the Phoebe Putney Memorial Hospital (PPMH) in Albany, GA. PPMH medical staff placed CASTRO on a ventilator, stabilizing his deteriorating medical condition.

On January 12, 2018, IHSC advised ERO Atlanta that CASTRO's medical condition had worsened. ERO Atlanta contacted CASTRO's spouse, mother, and brother and advised them of his declining health condition. ERO Atlanta facilitated the family's visit to CASTRO at PPMH at 1100 hours EST on January 13, 2018.

On January 17, 2018, PPMH transported CASTRO by a medically equipped helicopter to the Mayo Clinic in Jacksonville, FL as CASTRO requires a higher level of care than could be provided by PPMH.

On January 20, 2018, GEO security staff advised ERO Atlanta that CASTRO's family members refused to sign a Do Not Resuscitate Order.

On January 20, 2018 and January 22, 2018, CASTRO's family visited him at the Mayo Clinic in Jacksonville, FL.

On January 22, 2018, IHSC reported that CASTRO's is in critical condition and in a coma.

Subject: OPA ISSUE: Updating Detainee Death News Release from Jan. 31

Good morning,

ISSUE: Below is an updated version of the news release announcing the detainee death that occurred Jan. 30 at the Mayo Clinic in Florida. Based on the most recent meeting of the detainee death review board, new information gathered dictates that we update the news release to clarify that the individual did not

refuse medical treatment, but rather his case was resistant to some methods of medical intervention attempted, which caused his condition to worsen. Updated areas are highlighted.

NEWS RELEASE:

01/31/2018

ICE detainee passes away

ATLANTA – A Cuban national in the custody of U.S. Immigration and Customs Enforcement (ICE) died Tuesday night at the Mayo Clinic in Jacksonville, Fla.

Yulio Castro-Garrido, 33, was transported Jan. 7 to Southwest Regional Medical Center (SWRMC) in Cuthbert, Ga. after ICE Health Service Corps (ISHC) medical personnel at the Stewart Detention Center (SDC) in Lumpkin, Ga. diagnosed him with pneumonia.

After diagnosis, Mr. Castro didn't respond well to medically administered treatments, which caused his condition to worsen. On Jan. 9, IHSC staff coordinated the transfer of Castro to the Phoebe Putney Memorial Hospital (PPMH) in Albany, Ga. where he was placed on a ventilator to stabilize him.

On Jan. 17, PPMH transported Mr. Castro to the Mayo Clinic in Jacksonville for additional treatment. Mr. Castro slipped into a coma Jan. 22 and never regained consciousness. Consistent with agency protocols, next of kin and appropriate state health and local law enforcement agencies have been notified about the death, as have the Department of Homeland Security's Office of Inspector General and the ICE Office of Professional Responsibility. Additionally, ICE will also notify the Cuban Embassy in Washington, DC.

ICE is firmly committed to the health and welfare of all those in its custody and is undertaking a comprehensive review of this incident, as it does in all such cases. Fatalities in ICE custody, statistically, are exceedingly rare and occur at a fraction of the rate of the U.S. detained population as a whole. This agency's comprehensive review will be conducted by ICE senior leadership to include Enforcement and Removal Operations, the Office of Professional Responsibility and the Office of the Principal Legal Advisor.

Mr. Castro entered ICE custody on Nov. 24, following his transfer from the D. Ray James Federal Correctional Institute in Folkston, Ga. Castro was convicted Dec 8, 2016 of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced to a year and one day of confinement and three years of supervised probation. An immigration judge with the Executive Office for Immigration Review ordered Castro to be removed to Cuba Jan. 4; Mr. Castro waived his right to appeal.

Mr. Castro is the second detainee to pass away in ICE custody in fiscal year 2018.

Editor's Note: This release was updated to indicate, based on initial reviews, that Mr. Castro did not refuse medical treatment, rather his case was resistant to some forms of medical intervention.

To: Spicer, Tamara
Subject: AJC reporting on the death of Yulio Castro-Garrido

Good Morning Tammy,

As we discussed, I'm writing an article about the death of ICE detainee Yulio Castro-Garrido. Among my questions:

1. His younger brother (b)(6);(b)(7)(C) said his family was shocked to learn Yulio became sickened with pneumonia at Stewart Detention Center. (b)(6);(b)(7)(C) said Yulio was lean and healthy, he rarely drank alcohol and he didn't smoke before he was moved to Stewart. Could you explain how Yulio came down with pneumonia at Stewart?

2. (b)(6);(b)(7)(C) also expressed disbelief that his brother initially resisted medical treatment. ICE said in the attached news release that "After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen." Could you elaborate on that statement? What medical treatment was he offered and how and why did he refuse it?

3. (b)(6);(b)(7)(C) said his family had an extraordinarily difficult time getting information from ICE about Yulio's condition and his whereabouts as he was transported from hospital to hospital before his death. (b)(6);(b)(7)(C) said his family first learned about Yulio's pneumonia when a fellow inmate called his uncle, days after Yulio was first diagnosed with the illness at Stewart. Further, (b)(6);(b)(7)(C) said his family didn't know Yulio had been transported to the Mayo Clinic in Jacksonville until U.S. Rep. Ileana Ros-Lehtinen's office intervened and contacted ICE about Yulio's location. What efforts did ICE undertake to keep Yulio's family informed of his condition, whereabouts and treatment?

4. What is the status of ICE's investigation of the death of Jean Jimenez-Joseph? Here is my last piece about his death:

<http://politics.myajc.com/news/state--regional-govt--politics/ice-detainee-wasn-observed-required-before-hanged-himself/6QWVp7xFVnEKSIc9MNJsKK/>

5. What are the total numbers of people who have died in ICE custody for this current fiscal year, fiscal year 2017 and fiscal year 2016?

Could you respond by tomorrow?

Thanks,

Subject: SEN Report Notification Death of Detainee

Detainee Castro-Garrido, Yulio (b)(6);(b)(7)(C) passed away at 2017 on 30 Jan 2018. The detainee had been transferred from Phoebe Putney Hospital in Albany, GA to the Mayo Clinic in Jacksonville, FL on 17 Jan 2018 with a diagnosis of pneumonia and pneumonitis secondary to MRSA infection.

The attending physician reported the patient's condition deteriorated today (30 Jan 2018) with septic shock, hypotension and bradycardia that was unresponsive to treatment efforts. The detainee went into respiratory arrest and subsequently cardiac arrest shortly after 2000 tonight (30 Jan 2018). Emergency resuscitation efforts were immediately initiated but after approximately 15 minutes the physician pronounced the detainee deceased (2017).

The hospital has been notified not to release the body at this time. The hospital was informed that ICE would be in contact with the hospital to discuss disposition of the body and to request an autopsy.

The Joint Intake Center was notified via email from CAPT (b)(6);(b)(7)(C)

Additional information will be forwarded as it becomes available.

Please contact me if you have any questions.

Subject: SEN Report Notification Hospital Update

SDC has two Detainees at the hospital

Detainee#1:

Castro-Garrido, Yulio currently admitted to Mayo Clinic RM 404 in Jacksonville, FL.
For report please call 904 956-(b)(6);(b)(7)(C) and ask for floor supervisor.

Hospital Day : 23

Name: Castro-Garrido, Yulio

A# (b)(6);(b)(7)(C)

DOB: 10/27/1984

Country Citizenship: Cuba

Date of Arrival: 11/24/2017

Relevant Medical History: None

Date of admission: 1/8/2018

Current Diagnosis: Pneumonia and Flu-A, MRSA

Attending Physician: (b)(6);(b)(7)(C) (Infectious Disease)

Current status: 1/30/18

Detainee is currently a Full Code and in critical condition. Detainee is in a medically induced coma with vital signs as follow: BP: 99/46 (arterial), HR: 119, O2 Sat 91%, Respirations: 35, and Temp: 37.2C. Detainee has tracheostomy and currently on Pressure Control Ventilator, setting as follows: FIO2- 100% Respirations- 35, PEEP – 15, Pressure above PEEP – 30. Tidal volumes ranging 440 in and 140 out. Detainee has four chest tubes in total (2 left & 2 right) plus a pigtail drain. Right. Pleural chest tube labelled #2 draining moderate amount of serous drainage at 100cc. Chest tube #4 draining clear at 00cc. Right chest tubes have drained a total of 110 ml in 8 hrs at 10:00 pigtail= 10 cc.. Suction on four chest tubes set at -25 and the right chest tube labeled #2 set at -10. Recent ABG's drawn as at 0430 on 1/30/18: Blood Gases: PH 7.149, PACO2- 150, PAO2 -109.8, Bicarb 51.2, O2 sat 71.6%. Detainee is receiving Levophed at 0.02mcg/kg/min and Lasix at 20mg/hr. Detainee is also receiving supplemental nutrition via NJ tube, Oxepa 25 ml/hour. He is also receiving 30 ml free water flush every four hours. Detainee currently has NG tube that is attached to suction low intermittent suction. Foley catheter is in place with total urinary output for 8 hrs at 06:00 was 10cc, with a total output for today of 690cc. yesterday and and today the 1/30/18 so far has 200 cc. A rectal tube is also in place. .

Diagnostic procedures: No new ones as 1/30/18

1/28/2018- CT of the chest without contrast- Numerous bilateral cavitations. Ground glass opacities compatible with MRSA pneumonitis. Interval mild increase in size of moderate bilateral pneumothoraces. Numerous bilateral pulmonary cavitations not significantly changed from 1/17/18. Trace pleural fluid on the right. No pericardial effusion. Gallbladder wall thickening. Diffuse anasarca. 1/28/18 Chest X-ray-Increased size of right pneumothorax, minimal right to left shift of midline structures

1/24/2018 Echo result shows EF of 63%.

Bronchoscopy showed MRSA, Blood cultures positive for Bordetella Holmesii. Influenza A +, HIV negative

News Release

Florida-area ICE detainee passes away

ATLANTA – A Cuban national in the custody of U.S. Immigration and Customs Enforcement (ICE) died Tuesday night at the Mayo Clinic in Jacksonville, Fla.

Yulio Castro-Garrido, 33, was transported Jan. 7 to Southwest Regional Medical Center (SWRMC) in Cuthbert, Ga. after ICE Health Service Corps (ISHC) medical personnel at the Stewart Detention Center (SDC) in Lumpkin, Ga. diagnosed him with pneumonia.

After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen. On Jan. 9, IHSC staff coordinated the transfer of Castro to the Phoebe Putney Memorial Hospital (PPMH) in Albany, Ga. where he was placed on a ventilator to stabilize him.

On Jan. 17, PPMH transported to the Mayo Clinic in Jacksonville for additional treatment. Mr. Castro slipped into a coma Jan. 22 and never regained consciousness.

Consistent with agency protocols, next of kin and appropriate state health and local law enforcement agencies have been notified about the death, as have the Department of Homeland Security's Office of Inspector General and the ICE Office of Professional Responsibility. Additionally, ICE will also notify the Cuban Embassy in Washington, DC.

ICE is firmly committed to the health and welfare of all those in its custody and is undertaking a comprehensive review of this incident, as it does in all such cases. Fatalities in ICE custody, statistically, are exceedingly rare and occur at a fraction of the rate of the U.S. detained population as a whole. This agency's comprehensive review will be conducted by ICE senior leadership to include Enforcement and Removal Operations, the Office of Professional Responsibility and the Office of the Principal Legal Advisor.

Mr. Castro entered ICE custody on Nov. 24, following his transfer from the D. Ray James Federal Correctional Institute in Folkston, Ga. Castro was convicted Dec 8, 2016 of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced to a year and one day of confinement and three years of supervised probation. An immigration judge with the Executive Office for Immigration Review ordered Castro to be removed to Cuba Jan. 4; Mr. Castro waived his right to appeal.

Mr. Castro is the second detainee to pass away in ICE custody in fiscal year 2018.

ICE

U.S. Immigration and Customs Enforcement (ICE) is the largest investigative arm of the Department of Homeland Security. ICE is a 21st century law enforcement agency with broad responsibilities for a number of key homeland security priorities. For more information, visit: www.ICE.gov. To report suspicious activity, call 1-866-347-2423.

Tammy,

Per my 1105 message, Mr. CASTRO, our detainee at the Mayo Clinic, passed away at 2017 this evening. Attached is a draft of an ES current until the time of his death as referenced below.

The official detainee death notification will be forthcoming from HQ shortly. PAO will be copied.

If you need anything else please let us know.

Thanks,

Jose,

Apologies for my delayed response. I was out with the flu. In the future, best to send your queries to our main media box at ICEMedia@ice.dhs.gov so that I'm not a single point of failure.

I am connecting you here with colleagues who are covering Georgia for public affairs. I see that you have reviewed the news release regarding Mr. Castro-Garrido's passing. We will not be able to provide additional information about that case, but they may be able to give general information regarding the Stewart facility.

They can be in touch tomorrow, assuming there is not a lapse in government funding overnight tonight.

Regards,
Jennifer

Hi Ms. Elzea,

I hope this email finds you well. My. Name is Jose Olivares, I am a reporter with The Intercept.

I wanted to follow up with you regarding some questions I sent to ICEMedia last Friday. These are the questions I sent:

- How many detention facilities does ICE manage in the U.S.?
- How many of ICE's facilities are privately contracted in the U.S.?
- Regarding the death of Mr. Yulio Castro-Garrido (<https://www.ice.gov/news/releases/ice-detainee-passes-away>), can you please clarify the claim “Mr. Castro initially resisted medical treatment”? How did he resist the treatment?
- Will ICE be investigating conditions in the Stewart Detention Center, as a result of Mr. Castro’s death?
- How has ICE monitored conditions at the Stewart Detention Center, since the Office of Inspector General published the report on worrying detainee treatment at Stewart? <https://www.oig.dhs.gov/sites/default/files/assets/2017-12/OIG-18-32-Dec17.pdf>
- After reviewing detainee deaths since the beginning of Fiscal Year 2016, The Intercept found the majority of them are occurring in privately contracted detention facilities. Why is this the case? Are there different conditions in facilities that are privately contracted? Or is there a higher proportion of detainees housed in private facilities, making this the case?

I also wanted to add two more questions, in addendum to the first two:

— How many detainees are held in privately contracted detention facilities?

— How many detainees are held in publicly-run detention facilities?

Thank you so much. I look forward to hearing from you soon.

Take care,

Hi Nestor and Thomas,

I hope this email finds you well.

I just sent Tamara Spicer an email this morning (please see below), following up on questions regarding the Stewart Detention Center. I am wondering when a response may be available. Since she is out of the office, I was wondering if either of you could help.

Thank you so much.

Take care,

Jose

Jose,

Once again, I'd ask you to send queries to the ICEMedia box. ICEMedia@ice.dhs.gov so I am not a single point of failure.

In terms of the various business models of our detention facilities, here is the latest I can provide:

As of July 1, 2017 (the beginning of the 4th quarter of FY17), ICE's Average Daily Population (ADP) was 38,613. As of July 2017, ICE used 201 authorized adult detention facilities (not including family facilities) to house 93% of the Fiscal Year 2017 (FY17) ADP, including:

- Five government-owned Service Processing Centers (SPC), housing 9% of the FY17 ADP. SPCs are staffed by a combination of federal and contract staff. (FY17 ADP 3,336 detainees)

- Eight Contract Detention Facilities (CDF), housing 18% of FY17 ADP. CDFs are facilities owned by a private company and contracted directly with the federal government. (FY17 ADP 6,897 detainees)
- 12 dedicated Intergovernmental Service Agreements (IGSA) facilities, housing 26% of FY17 ADP. Dedicated IGSA facilities enable ICE to contract with a local government entity for exclusive use of the facility, and the local governmental entity contracts for facility staffing/operations. (FY17 ADP 10,131 detainees)
- 82 non-dedicated IGSA, housing 21% of FY17 ADP. At non-dedicated IGSA ICE will contract for partial use of the facility. (FY17 ADP 8,043 detainees)
- 94 facilities with a USMS Intergovernmental Agreement (IGA), housing 20% of FY17 ADP. At USMS IGA facilities, ICE obtains bed space through an existing agreement that each facility maintains with the USMS. (FY17 ADP 7,608 detainees)
- Most of the non-dedicated IGSA and IGAs are county jails; however, 47% of these facilities will have an ADP of less than 10 detainees.
- The remaining 7% of FY17 ADP are housed in Family, BOP, hospitals, and infrequently used facilities with low populations. (FY17 ADP 2,597 detainees)
- In considering the DOJ directive regarding private prisons in relation to ICE's use of privatized immigration detention, we believe it is important to understand how the BOP system compares to the ICE detention system.
- ICE uses these various kinds of facilities to meet the agency's detention needs while achieving the highest possible cost savings for the taxpayer. Current bed day rate is approximately \$129.
- The programming and conditions at ICE SPCs, CDFs and dedicated IGSA in large part exceed the conditions at many of the non-dedicated IGSA and/or county jails that hold detainees. These facilities are operated to house only immigration detainees and are subject to the 2011 Performance Based National Detention Standards.
- ICE currently has either permanent or roving staff at 50 CDFs, dedicated IGSA and non-dedicated IGSA, housing 66 percent of the FY 2017 total ADP. The ICE staff monitors conditions of confinement on a daily basis and ensures these facilities are meeting the ICE detention standards and other contractual requirements.

· ICE currently has either permanent or roving staff at 55 CDFs, SPCs, dedicated IGSAs and non-dedicated IGSAs, housing 75 percent of the FY 2017 total ADP. The ICE staff monitors conditions of confinement on a daily basis and ensures these facilities are meeting the ICE detention standards and other contractual requirements.

--

I'm also copying Tamara Spicer here who can provide info about local efforts surrounding the Stewart facility. I believe they are currently reviewing the report to develop a plan to make changes to their operations, if needed.

Jennifer

Hi Jennifer,

I'm so sorry to hear you were sick. I hope you are feeling better!

Thank you so much for passing this on, I greatly appreciate it. There were also some questions included for more general points, that are not just specific to Georgia. I would greatly appreciate some your insight for those. Please let me know if this is possible (they are listed at the bottom of this email).

Thank you so much! I hope you are doing better. Sorry to hear you were out with the flu — seems it has been going around these past two weeks.

Take care,

Jose

To: #ICE OPA ERO Issue Paper
Cc: Gallagher, Sean W; (b)(6);(b)(7)(C) Yglesias, Nestor J
Subject: OPA Issue: Death of detainee
Attachments: Cuban national passes away in Jacksonville.doc

DEADLINE: PAO will not do any release until after ERO has cleared, and after all notifications are complete.

ISSUE: Passing of an ICE detainee

STATEMENT:

ATLANTA – A Cuban national in the custody of U.S. Immigration and Customs Enforcement (ICE) died Tuesday night at the Mayo Clinic in Jacksonville, Fla.

Yulio Castro-Garrido, 33, was transported Jan. 7 to Southwest Regional Medical Center (SWRMC) in Cuthbert, Ga. after ICE Health Service Corps (ISHC) medical personnel at the Stewart Detention Center (SDC) in Lumpkin, Ga. diagnosed him with pneumonia.

After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen. On Jan. 9, IHSC staff coordinated the transfer of Castro to the Phoebe Putney Memorial Hospital (PPMH) in Albany, Ga. where he was placed on a ventilator to stabilize him.

On Jan. 17, PPMH transported to the Mayo Clinic in Jacksonville for additional treatment. Mr. Castro slipped into a coma Jan. 22 and never regained consciousness.

Consistent with agency protocols, next of kin and appropriate state health and local law enforcement agencies have been notified about the death, as have the Department of Homeland Security's Office of Inspector General and the ICE Office of Professional Responsibility. Additionally, ICE will also notify the Cuban Embassy in Washington, DC.

ICE is firmly committed to the health and welfare of all those in its custody and is undertaking a comprehensive review of this incident, as it does in all such cases. Fatalities in ICE custody, statistically, are exceedingly rare and occur at a fraction of the rate of the U.S. detained population as a whole. This agency's comprehensive review will be conducted by ICE senior leadership to include Enforcement and Removal Operations, the Office of Professional Responsibility and the Office of the Principal Legal Advisor.

Mr. Castro entered ICE custody on Nov. 24, following his transfer from the D. Ray James Federal Correctional Institute in Folkston, Ga. Castro was convicted Dec 8, 2016 of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced to a year and one day of confinement and three years of supervised probation. An immigration judge with the Executive Office for Immigration Review ordered Castro to be removed to Cuba Jan. 4; Mr. Castro waived his right to appeal.

Mr. Castro is the second detainee to pass away in ICE custody in fiscal year 2018.

INTERNAL INFORMATION (NOT FOR RELEASE):

On January 7, 2018, ERO Atlanta notified ERO HQ Domestic Operations that Yulio CASTRO-Garrido, (b)(6);(b)(7)(C) a 33 year-old citizen and national of Cuba, would be admitted to the Southwest Georgia Regional Hospital in Cuthbert, GA for pneumonia and Flu-A treatment. On January 17, 2018, CASTRO was transferred to Mayo Clinic in Jacksonville, FL via air ambulance as the ICE Health Service Corps (IHSC) reported that CASTRO's condition continued to deteriorate.

BACKGROUND:

On October 27, 2013, CASTRO applied for admission to U.S. Customs and Border Protection (CBP) at the Gateway to the Americas Bridge port of entry in Laredo, TX. CASTRO stated that he had a fear of returning to his home country of Cuba. CBP paroled CASTRO into the United States until October 26, 2015.

On November 3, 2014, CASTRO submitted an Application to Register Permanent Residence or Adjust Status, Form I-485, to U.S. Citizenship and Immigration Services (USCIS).

On July 24, 2015, USCIS approved CASTRO's Form I-485 application adjusting his status to a Lawful Permanent Resident.

On December 8, 2016, the U.S. District Court Southern District of Texas in Laredo, TX convicted CASTRO of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced him to 12 months and one day confinement and 3 years of supervised probation.

On October 18, 2017, ERO Atlanta encountered CASTRO at the D. Ray James (DRJ) Federal Correctional Institute in Folkston, GA. ERO Atlanta determined CASTRO to be a Lawful Permanent Resident with an aggravated felony conviction and served him with a Notice to Appear, Form I-862, pursuant to Section 237(a)(2)(A)(iii) of the Immigration and Nationality Act.

On November 24, 2017, DRJ released CASTRO to ERO Atlanta's custody and he was transferred to the Stewart Detention Center (SDC) in Lumpkin, GA.

On November 28, 2017, the Office of Chief Counsel reviewed CASTRO's Form I-862 and determined it to be legally sufficient.

On January 4, 2018, the immigration judge ordered CASTRO removed to Cuba. CASTRO waived his right to appeal.

On January 7, 2018, at approximately 2321 hours EST, Core Civic officers transported CASTRO to the Southwest Regional Medical Center (SWRMC) in Cuthbert, GA for evaluation and treatment for pneumonia.

On January 8, 2018, at approximately 0030 hours EST, SWRMC admitted CASTRO.

On January 9, 2018, IHSC at the SDC informed ERO Atlanta that CASTRO was resisting all medical treatment causing his medical conditions for pneumonia to increase in severity. IHSC staff coordinated with Core Civic and transferred CASTRO to the Phoebe Putney Memorial Hospital (PPMH) in Albany, GA. PPMH medical staff placed CASTRO on a ventilator, stabilizing his deteriorating medical condition.

On January 12, 2018, IHSC advised ERO Atlanta that CASTRO's medical condition had worsened. ERO Atlanta contacted CASTRO's spouse, mother, and brother and advised them of his declining health condition. ERO Atlanta facilitated the family's visit to CASTRO at PPMH at 1100 hours EST on January 13, 2018.

On January 17, 2018, PPMH transported CASTRO by a medically equipped helicopter to the Mayo Clinic in Jacksonville, FL as CASTRO requires a higher level of care than could be provided by PPMH.

On January 20, 2018, GEO security staff advised ERO Atlanta that CASTRO's family members refused to sign a Do Not Resuscitate Order.

On January 20, 2018 and January 22, 2018, CASTRO's family visited him at the Mayo Clinic in Jacksonville, FL.

On January 22, 2018, IHSC reported that CASTRO's is in critical condition and in a coma.

ICE detainee passes away

ATLANTA – A Cuban national in the custody of U.S. Immigration and Customs Enforcement (ICE) died Tuesday night at the Mayo Clinic in Jacksonville, Fla.

Yulio Castro-Garrido, 33, was transported Jan. 7 to Southwest Regional Medical Center (SWRMC) in Cuthbert, Ga. after ICE Health Service Corps (ISHC) medical personnel at the Stewart Detention Center (SDC) in Lumpkin, Ga. diagnosed him with pneumonia.

After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen. On Jan. 9, IHSC staff coordinated the transfer of Castro to the Phoebe Putney Memorial Hospital (PPMH) in Albany, Ga. where he was placed on a ventilator to stabilize him.

On Jan. 17, PPMH transported to the Mayo Clinic in Jacksonville for additional treatment. Mr. Castro slipped into a coma Jan. 22 and never regained consciousness.

Consistent with agency protocols, next of kin and appropriate state health and local law enforcement agencies have been notified about the death, as have the Department of Homeland Security's Office of Inspector General and the ICE Office of Professional Responsibility. Additionally, ICE will also notify the Cuban Embassy in Washington, DC.

ICE is firmly committed to the health and welfare of all those in its custody and is undertaking a comprehensive review of this incident, as it does in all such cases. Fatalities in ICE custody, statistically, are exceedingly rare and occur at a fraction of the rate of the U.S. detained population as a whole. This agency's comprehensive review will be conducted by ICE senior leadership to include Enforcement and Removal Operations, the Office of Professional Responsibility and the Office of the Principal Legal Advisor.

Mr. Castro entered ICE custody on Nov. 24, following his transfer from the D. Ray James Federal Correctional Institute in Folkston, Ga. Castro was convicted Dec 8, 2016 of conspiracy to transport and move an undocumented alien within the United States by means of transportation and sentenced to a year and one day of confinement and three years of supervised probation. An immigration judge with the Executive Office for Immigration Review ordered Castro to be removed to Cuba Jan. 4; Mr. Castro waived his right to appeal.

Mr. Castro is the second detainee to pass away in ICE custody in fiscal year 2018.

ICE

U.S. Immigration and Customs Enforcement (ICE) is the largest investigative arm of the Department of Homeland Security. ICE is a 21st century law enforcement agency with broad responsibilities for a number of key homeland security priorities. For more information, visit: www.ICE.gov. To report suspicious activity, call 1-866-347-2423.

Tammy,

Can you please send Jeremy the link to the updated press release? I know he's been following the case.

Jenn/Sarah - (b)(5) but
first wanted to let you have visibility on the serious accusations from the family.

Subject: AJC reporting on the death of Yulio Castro-Garrido

Good Morning Tammy,

As we discussed, I'm writing an article about the death of ICE detainee Yulio Castro-Garrido.
Among my questions:

1. His younger brother (b)(6);(b)(7)(C) said his family was shocked to learn Yulio became sickened with pneumonia at Stewart Detention Center. (b)(6);(b)(7)(C) said Yulio was lean and healthy, he rarely drank alcohol and he didn't smoke before he was moved to Stewart. Could you explain how Yulio came down with pneumonia at Stewart?

2. (b)(6);(b)(7)(C) also expressed disbelief that his brother initially resisted medical treatment. ICE said in the attached news release that "After diagnosis, Mr. Castro initially resisted medical treatment which caused his condition to worsen." Could you elaborate on that statement? What medical treatment was he offered and how and why did he refuse it?

3. (b)(6);(b)(7)(C) said his family had an extraordinarily difficult time getting information from ICE about Yulio's condition and his whereabouts as he was transported from hospital to hospital before his death. (b)(6);(b)(7)(C) said his family first learned about Yulio's pneumonia when a fellow inmate called his uncle, days after Yulio was first diagnosed with the illness at Stewart. Further, (b)(6);(b)(7)(C) said his family didn't know Yulio had been transported to the Mayo Clinic in Jacksonville until U.S. Rep. Ileana Ros-Lehtinen's office intervened and contacted ICE about Yulio's location. What efforts did ICE undertake to keep Yulio's family informed of his condition, whereabouts and treatment?

4. What is the status of ICE's investigation of the death of Jean Jimenez-Joseph? Here is my last piece about his death:

<http://politics.myajc.com/news/state--regional-govt--politics/ice-detainee-wasn-observed-required-before-hanged-himself/6QWVp7xFVnEKSlc9MNJsKK/>

5. What are the total numbers of people who have died in ICE custody for this current fiscal year, fiscal year 2017 and fiscal year 2016?

Could you respond by tomorrow?

Thanks,

Jeremy Redmon
